The secretary's letter said: My Dear Senator Chamberlain: The questions which have arisen with regard to the conduct of the war require an explicit statement from me for the information of your commit-tee and generally for the informan of the Corgress and the country. Engineer Ferris Resigns Fleet Corporation

WASHINGTON, Jan. 25.-Theodore E. Ferris, chief architect and construction engineer of the Emergency Fleet Corporation, who designed most of the steel vessels now building, has resigned.

His resignation, announced today by Charles Piez, general manager of the fleet corporation, is the climax of a bitter controversy growing out of the award of ship contracts to 'paper" shipbuilding firms.

Ferris designed the Ferris type wooden ship, 400 of which are being built by the fleet corporation, and helped design special steel ship types the corporation is having constructed. Ferris quit the corporation, it is understood, for fear that his continued service would embarrass the construction program. The Senate committee investigating shipbuilding had questioned Ferris' connection with shipbuilding interests and Ferris, it is said, felt that he should get out.

For the first time in the history of the war—so far as concerns the belligerents generally—terms of peace have been categorically stated and answered. The answers, which complete the category, recently opened by President Wilson and Premier Lloyd George, are contained in the statement of Chancellor von Hertling, published today. Fourteen demands made by President Wilson and the replies Chancellor von Hertling returns to them are presented below—the American demand being printed in Roman face type, the Berlin rejoinder in

Until Deceased Ruler Is Laid to Rest a Successor Will Not Be Named

A carload of Italian marble, en route to California, is all that is holding royalty from its own, according to heads of the band of 1000 Serbian gypsies, who have arrived in Oakland to elect a successor to the late King Alexander Adams. The narble is for a \$5000 temb which is being rected in Sacramento for Adams' remains, and until the final rites are performed, no selection of a successor will

It was originally intended that the election should take place in Oakland today The failure of the marble which is to complete the mausoleum, to arrive on time, however, has retarded the program Numerous candidates for the royal purole have mutually agreed to warve political machinations until Adams is finally laid to rest under the elaborate ceremonies of the Greek church, of which the mapority of the gypsy band are members
Efforts on the part of John Adams,
nephew of the late king, to invoke the
aid of President Wilson in holding off the election of a gypsy head, are not taken seriously by local representatives of the branch. Mike Adams, the son of the late king, another nephew named Joe

MYSTERIOUS CRAFT.

Mysterious maneuvers of a strange craft off the western waterfront near the Judson manufacturing plant at an early hour this morning, resulted in the calling out of the police reserves, and the dispatch of the police launch to the scene. The suspicious craft which had attracted the attention of a watchman at the Judson plant, carried no lights and was hovering within the shadows of a duck blind short-

ly after 1 o'clock.

While the reserves were speeding to the scene the boat was seen to speed away in the direction of the Berkeley shore, and the police of the college city were notified to make investigation. Up to a late hour this morning the antics

of the craft had not been removed from the mysterious stage. When the alarm was turned in to the Central Station, Captain J. F. Lynch, in charge of the night watch, notified "Admiral" Sherry of the police boat, which was pairolling in the estuary. The patrol boat immediately headed down the

"danser zone" as Captain Lynch designated it in his report to Chief of Police Nedderman today. While the police were on watch several shots were fired from the vicinity of the Key Route mole, evi-

dently from a shotgun. An investigation Indicated that some one had fired into a flock of ducks which were maneuvering in the moonlight, but the hunters could not be located.

BURRO MEAT FOR TABLE USE TO COME NEXT

The man who named his burro "Maxwellton" because his "brays we'e bonne," can now, with an even clearer conscience call him "Porterhouse" For a set of official testers with tough teeth have just found out that the Rocky Mountain "canary" prop-erly roasted and seasoned is just as good as beef and a whole lot

Italy long ago discovered that burro meat was a deheacy. In Italy th meat is pounded before being eaten, with a pick handle. Usually the pounding is done while the meat is still being used by the burro for a coreass It is said to be very tender. Mexican burros have been pounded for generations. Fence rails, shovels, tent poles-anything is useful for purpose. Hence the alleged edibility.

A test package of burro meat from a packing house was submitted to the San Francisco labeled it venison and tried it out on some of its friends. The eat-ers branded it as "blamed good deer meat" and asked for more. Local markets are arranging for the importation of burros for table purposes.

An appeal to every mercantile firm, public utility, drug store, cigar store, drygoods establishment and every other business house in Oakland, asking that these firms apply at once at war savings headquarters, 310 Syndi-cate building, and sign an application for a war savings stamps sales agency, is sent out by Seymour Hall, manager of the sales department of the war savings committee.

Several volunteers are canvassing the business district at present, but the response has not been sufficient and the war savings committee is anxious that Oakland establish a record for sales

agencies. "We must make the handling of war-savings stamps and thrift stamps a test of patriotism," says John S. Drum, state director of war savings for Northern Cali-"We must educate the public to recognize that every business house which sells the stamps is conforming to the government's request and doing its patriotic duty, while every business house that is indifferent is helping to retard the govern-

ment's plan.
"No merchant, or druggist, or proprietor of any other business firm can lose by becoming an agent. On the other hand, those who push the sale of stamps will receive the benefit of the general approbation of their customers and public."

JUDGE COMMENDS TRIBUNE JUNIOR

High tribute to The OAKLAND TRIBUNE JUNIOR, the publication of The TRIBUNE carriers, has been paid by Superior Judge Thomas F. Grahard. chairman of the County Council of De-fense of San Francisco county, in a let-ter received today by Eeverly Swaby. editor of the paper. The publication, which is edited, combosed and printed by the carriers, came into Judge Gra-ham's hands and he expresses his ap-probation of it in the following manner: County Council of Defense,

—JUNIOR, Oakland, Cal.

My Dear Sir: Some member of
your staff sent me a copy of The
OAKLAND TRIBUNE JUNIOR, "a
paper for our livewire carriers." A glance at the contents of your excelit is going to be a big success. I am sure that the men and women of Alameda county will be gind to support The OAKLAND TRIBUNE JUNIOR because of the energy, enterprise and ambition of those who are getting the paper out

If you continue with the same character of real, live, interesting articles as are in this issue, I am sure that nothing but success awaits you. Wishing you and the members of your staff every success I am,
"Very sincerely,

Press an electric button and you form a contact with a live wire which rings the bell. When your shoes press against your corn it pushes its sharp roots down upon a sensitive nerve and

you get a shock of pain.

Instead of trimming your corns, which merely makes them grow, just step into any drug store and ask for a quarter of an ounce of freezone. This will cost very little but is sufficient to remove every hard or soft corn or cal-lus from one's feet. A few drops ap-plied directly upon a tender, aching corn stops the soreness instantly, and soon the corn shrivels up so it lifts right out, root and all, without pain. This drug is harmless and never in-flames or even irritates the surrounding tissue or skin.—Advertisement.

.The "speeding up" of the war program in Washington has aroused an echo in Oakland. There will be inaugurated at 10 o'clock tomorrow morning a series of free food demonstrations under the direction of Professor Mary B. Vail of the household economics department of Mills College, at Kahn's store on the third floor.

The United States Food Administration has called attention to the greatly increased demand for the sugar of cane and beet, to supply American fighting men and also "to buck up the French." The women's army of Oakland has heard the call of General Persising and, after the demonstration of temerrow morning on sugar substitutes, will adopt the sweets that their grandmothers used, molasses, honey, fresh fruit dried fruit the jelly and jam on their pantry shelves as well as such modern products as karo, etc. Samples and recipes will be distributed.

SENT HOME. In the event Colonel Ryan is found unfit to lead the men of the national army to the front he will be demoted to regular army rank of major and

ordered home.

The inquiry into the upper rank officers is pursuant to a recent order from the war department and subsequent instructions received by mail and wire to make full investigation of the fitness of commanding officers.
The strictest scrutiny is being made of all the requisites for European service. The shakeup is expected to service. The snakeup is expected to affect scores of officers who hold reserve commissions and many-others who have heretofore stood high in the service. War demands of the highest efficiency are declared to be

Centipede As a Pet Declared Not Successful

Charles Goward, local commission man, will never again keep a centipede as a pet. He is recovering from a badly swollen hand because of his attempt to study natural history firsthand. For sharper than a serpent's tooth is a centipede's ingratitude.

He found the centipede in a shipment of pineamples, and put it carefully in a bottle. He christened it "Jack Morello" after the baseball player, fed it, played with it with a straw, and all was lovely. He says he treated that centipede like a brother.

But one day "lack Morello" got loose, and Goward happened to put his hand on him in the dark. His hand is still in bad shape, but he was able to return to work this week.

Now, when he sees centipedes he steps on them.

SAN ANTONIO, Tex., Jan. 25.— With a broken airplane, 3000 feet above earth, Major C. K. Rhine-hardt and Captain J. Phipps of the Reyal British Flying Corps, en route from Fort Worth to San Antonio, won a thrilling fight for their lives.

The last sixty miles of the flight were made with Major Rhinehardt lying extended on the plane and holding in position a wing on which the struts had broken. The accident occurred when the men had flown 185 miles and was noted when the machine began careening. Captain Phinus, leaving the car, tried to adjust the struts, but failed. Major Rhinenarut surrendered the control, and by holding the wing in place, partly with his body and partly with his arms, succeeded in finishing the flight.

SAYS REVOITS

LONDON, Jan. 25.—A German nayal engineer, with the rank of lieuteant, who has deserted from Riei, according to an Amesterdam despatch to the Daily Express, states that dissatisfaction among the men of the German fleet is much more serious than in the army. He asserts there have been important revolts, generally among the crews of mine-sweepers.

Three weeks ago a squadron of rested and sentenced to terms of important revolts.

No one is more sensible of his perils in this connection than Senator Chamberlain. Up to the present moment no one is deserving of more credit for a patriotic desire to do everything possible for the successful defense of the country than he.

He should therefore be answered by the President and the War Department with confession to the charges he makes or with evidence disproving them. It is not sufficient, nor is it seemly, to reply with ugly epithets or denials conceived in a feeling of indifference and superiority.

The government cannot accuse Senator Chamberlain with trying to play polities. He ranks among the leading Democrats of the country.

OW TO PILL THE LUNCH-BOX. Now that 'he price of meat is soar-ing, the problem with many house-wives is, "What shall I put in father's lunchbox?" Father, let us say, does

have on hand for the lunchbox a loaf of some kind—either a fish loaf, or a meat loaf made of one of the inexpensive cuts, or bean loaf, cheese loaf or a nut loaf. These are all substantial, can be flavored so that they taste very much like meat, and they really have just as much nutritive value. They're all made by either chopping or mashing the chief ingredient, add-ing bread crumbs, seasonings, stock or water and some fat, and then baked. Such a loaf can be kept in a cold place for many days and then be used in the lunchbox in a variety

of ways.
SAVING ON WHEAT. You can spread it thickly on slices of bread, like a paste, moistening either with a little mayonnaise, chill sauce or ketchup, or it can be placed in a thick side between sides of but-tered bread or it may be lightly tried after cutting from the loaf and then

placed on bread.

But either cheese, eggs, fish, meat or some kind of beans should be included in the lunchbox of the mus-cular worker every day. He needs the protein foods in good quantity, as well as some fats and starches. If, therefore, you find that you've only a small amount of any of these foods to be used in making up sandwiches, then fill out by adding to the lunchbex a handful of nuts, a square of cheese, or a dessert in which eggs have been used, like custard or an egg cake of some kind.

Use ryc bread or cornmeal breads, not white bread. This will not only help you in doing your part to save the white bread, but you will also add much more nourishment to the contents of the lunchbox than the white bread gives.

TWO ESPORTANT POINTS There should be some sweet in the lunchbox of the muscular worker, fruit perhaps—like banana, orange, apple, bunch of raisins, figs or dates -some cookies, sweet buns or a square of chocolate.

Above all, arrange in some way so that there will be a hot drink in the lunchbox. You can get a small vacuum bottle or jar for the purpose and it is useful in many other ways. You can fill it with hot coffee or tea or cocoa-if the rest of the meal is not too rich-and better still, you can fill it with a good hot soup.

ivits intuines will greatly send you ? recipes for any special lunch-box food that you wish if you will address her at Applecroft Experiment Station, Green lawn, New York, enclosing a self-addressed, stamped envelope for a personal reply direct to you.

Army officers stated today they have found one woman who attempted to play "wife" to four soldiers to mulet the government. She sought to receive an allotment of \$15 and an allowance of \$15 from each of her "husbands," and then split "fifty-fifty" by returning part of the money. Under this plan she was able to have \$50 a month for herself and durn \$15 to each of the "husbands." Under the army ruling there is no

REAL TIE---Looking Over the Matinee Dolls Isn't Such Fun After All -

Young Recruits For 1918 Oaks Will Organize For Instruction and Fractice

New Players Will Have Chance to Show Ability Without Giving Up Jobs.

Speed Martin may go to the Boston Red Son next summer if Duffy Lewis can put in a strong enough word to swing a deal now hanging fire. But that probability of Speed not being with the Oakts next summer is not preventing him from getting out and making plans for the development of the young tolent signed up by Cal Ewing and Herb McFarlin for the 1913 squad. In fact Speed has been largely instrumental in signing up several of the youngsters who are on the list, and now, backed by the Oakland Parlor of Native Sons, Speed is going ahead with a plan for the development of that young material such as Coast league baseball has never known before.

It wouldn't be a bad idea to dub Martin "Prof." instead of Speed these days, for Martin is the general manager and high cockalorum of a practical indoor baseball school. Regular meetings of the youngsters on the 1918 Oak list are held and these meetings are split up about equally between time devoted to baseball discussion and time devoted to pleasure programs that will tend to send the 1918 Oaks on the field more like a big family than has ever been the case before.

St. Mary's Team Sequoyah Golfers Opens Baseball Season Sunday

Plenty of Promising Material to Get Chance Against Martin's All-Stars.

The start of the baseball season for St. Mary's College will be Sunday afternoon at the college grounds, when the Phoenix team will work against "Speed" Martins. All Stars. Of course since "Speed" is scheduled to pitch for the Crockett nine in the Midwinter league, his All Stars will have to do without his services, but Martin has obtained Dick Arlett to do the pitching for his team.

The St. Mary's Phoenix team should be all that its reputation stands for this year. Four pitchers of ability and two high class catchers are on hand to do the battery work, and a good batte of veterans to handle the remaining positions.

Vermon Oesgeher, brother of the Philly star, who pitched good ball last year, will be back, along with Ted Brandon, also a veteran. Besides these, St. Mary's has Nugent and Lambert for box work, Graff, of last year's squad, along with Keane, former Technical High school boy, who has been starring with the Fruitvale team in the Midwinter league, will be the backstops.

In the infield Cunningham at first, Kelly at second, Govanlock at short, and Mitchell at third are the best prospects, first leg of a home and home tournament. nd second. Gowanlock at short, and Mitchell at third are the best prospects, white Scott, Silva and Medlin are crack

Several of the Sequoyah golfers who had hopes of winning the directors' cup tournament are breathing easier since the elimination of James Fl. L'Hommedieu elub enampion, who lost to J. A. Young in the first round. The second round play will take place tomorrow afterneon and the semi-finals and finals on Sunday.

Colonel W. S. Rheem and Harvey Lindsay are about the best golfers remaining in the first round competition, but such players as J. A. Young and B. J. Smith, who have been coming forward fast in late months, can be considered dangerous. The result of the first round play as completed is:

First flight:

J. A. Young defeated J. H. L'Hommedieu, 2 and 1.

E. J. Smith defeated F. E. McGurrin, 19.

CLAREMONT VS. PRESIDIO.

Clarement Country Club golfers will get together with the Presidio cracks for the first leg of a home and home tournament tomorrow. With the first play on the Clarement links, the local golfers will have to figure on piling up a lead of several points to make up for the advantage their opponents will have on the following Saturday when the play is held on the Presidio links.

Frankie Denny, the Onkland scrapper Racine. Wis., tonight when he meers who has been coming with a rush in his last few fights, will get a chance to show a last few fights.

Star Players to Lead Army Squads Here

Cliff McCarl, Duffy Lewis, Rod Murphy, Hallinan and Ris-berg Have Clubs.

Cliff McCarl, Swede Risberg, Duffy Lewis, Rod Murphy and Eddie Hallinan! That may be the headline quintet who will lead training camp basebail teams into action in the basebail tournament that will feature the big athletic program of the Washington's Birthday festivities planned here for the service men by committees of the war camp community service movements. These five popular ball players are handling the basebail affairs in various military centers in close proximity to the bay and from all of their camps have come words of favor for the big athletic program.

Cliff McCarl is the latest to receive an appointment as athletic officer at a nost, he having taken up his duties at the Presidio in San Francisco today. Swede Risberg has a ball club in the Cuartermaster Corps at the Presidio: Duff Lewis has a club in the naval training station at Mare Island; Rod Murphy is organizing a club at the Marine Corps station, Mare Island, and Eddie Hallinan has a club at Camp Fremont.

McCarl accepted a job at the Presidio in preference to returning to professional bareball this year. Last year McCarl finished the Season as manager of the Butte club in the Northwestern league and he could have had that job back fills year; also he could have easily hooked up with a Ceast League club. But Cliff chose the Presidio tob as one at which he could feel that he was doing more of his bit for the boys in the service.

|ELECTRIC MEN IN CITY'S EMPLOY MAY WALK OUT

Refusal on the part of the civil service board to recommend a higher wage schedule as affecting one position of extra lineman in the city electrical department will probably precliffate a strike of all electrical workers in the employ of the city on February 1, according to Frederick Voigt. secretary of the union. The city council today raised the pay for the position from \$4.75 a day to \$5. The civil service board, after an investigation, held that \$5 is the union scale with the big electrical companies doinc business in Oakland and that the city should not pay higher than private conserus. The men demand \$5.50 and \$4. There are approximately \$00 electrical workers employed by the city. These include the men who operate the fire alarm and police telegraph systems, which would be erippled considerably in event of a strike. Secretary Voigt stated that a session of the executive committee of the union will be called at once to consider the situation.

UNITED STATES BONDS. NEW YORK, Jan. 25.—Peace rumors and pending railway legislation ninated today's stock market, inducing extensive short covering.

Shippings furnished the basis of the early dealings on the Stock Exchange of the early dealings of the early dea

dominated today's stock market, inducing extensive short covering.

Shippings furnished the hasis of the early dealings on the Stock Exchange today with oils and related specialties. Atlantic Culf shares were in demand at an advance of almost three points in the first half hour and Mexican Petroleum gained two points. Industrials were but slightly changed though mainly higher, and rails were firm to strong. Canadian Pacific gaining a point. U. S. Steel hardened after early irregularly and, other equipments showed moderate improvement. Liberty Bonds were unchanged. Extreme gains of one to three points in cupipments, simplyings, rails and fertilizans when partly suncinduced at coon. Further strength was shown by French munition bonds.

Profit-taking caused temporary recessions in the last hour, but those were again largely retrieved. The closing was strong. Liberty 3½/s sold at the new minimum of 97.56, first iours at 97 to 96.73 and second rours at 95.50 to 96.16.

The course of prices at different periods during the day is indicated in dual in the following:

A sister of the wounded man, Miss Flora Headington, fell in a dead faint in the operating room at the hespetal wher was brought to where her brothe was lying. The boy's mother, Mrs. J. Broderick, 2230 Thirty-lifth avenue, dechied between her sobs that her son had always been jenious of his wife and that county the gospel of saving and servhe had threatened often to do away with ing. of thrift, self-denial, sacrifice,

"After playing the plane for eve nears the next few months. I was hungry and went out to get some supper," the wife explained. "By doing so I missed the 1:35 car and was stouding on the corner at Thirteenth and Eroad-way wondering what to do when a taxt of the sale of war savings stamps drove up. I got in and went home. The driver had started his car and my husbard missed him. Then he turned the gun on himself and fell to the walk beside me.

"As soon as I could I called central and asked for a doctor. Central connected me with the Melrose police. WAS NO FRIEND.

"You may know that the driver was pression in the pulpits of America," no friend of mine, as my husband says the letter to the pastors. "Minthought, for he drove away and left isters who serve God never falter in me there in that terrible situation. I service to their country. Today a rever saw him before and don't even demand for the voice of these men of the pulpits has come. very sorry I stopped to eat, for it made me late and my husband is terribly jealous of me, anyway."

Mrs. Broderick, the boy's mother, says she attributes the act to the fact that her son has not been well lately and out of work and despondent.

At the receiving hospital the young husband declared he was sorry he did not shoot his wife before he trained the gun against himself. He said he did not want

Tribune Thanked For Success of Sporting Show

EDITOR TRIBUNE-On behalf of the Oakland Public Museum I wish to extend thanks to your firm for your cerdial upport in making a success of the Sportsmen's and Outing Show held at the auditorium last week. Not, only was your exhibit worked out along unique and interesting lines, but the publicity you gave in columns of your paper was of greatest value in disseminating the requisite information in advance of and during the exposition. The museum authorities appreciate your cooperation.
